ESCAPE

ESCAPE | COMPACT FOOTPRINT. BIG FEATS.

Though Ford Escape doesn't take up a lot of space in the landscape, it does have a lot of presence. With its muscular, dynamic styling, zippy standard and available drivetrains, spacious 5-passenger seating, and an interior loaded with functional and convenient features, Escape combines sport and utility to superb effect.

And Escape beats the competition handily, again and again, with an available V6 engine, 4-wheel independent suspension system, and available side-impact airbags that...well, someday every compact SUV may have them, but Escape offers them now.

Ford Escape. It's big stuff for its smaller size.

Always wear your safety belt and secure children in the rear seat.

ESCAPE | NO BOUNDARIES™ RACK SYSTEM

Simply ingenious. The No Boundaries Rack System, standard on XLT Sport, does double duty where you need it.

- On the roof, it gives you 100 pounds of capacity, with adjustable crossbars to handle loads of various sizes.
- And if you need additional capacity for gear best handled on the back of Escape, unlock the rack, pull and rotate it down over the liftgate, snap it into position, and you're ready for another 100 lbs. You can carry gear on both racks at the same time.
