

The Ford Motor Company proudly presents

the **Continental** *Mark III*

the Continental Mark II

The Continental Mark II is the work of master craftsmen. In every detail, it represents the determination of the Ford Motor Company to create a motor car finer than any that America has ever known.

For the upholstery leathers, for example, our search led to Bridge of Weir, Scotland. Here, leathers are cured by a method passed on from one generation to the next, then handworked to a wondrously rich softness.

Rebirth of a proud tradition *the Continental Mark II . . .*

It is conservative, but in a distinctive and exciting way.

It is a car in which quality has always been considered first.

The Continental *Mark II* is the American-built motor car of custom features, sedate
