

DODGE

RAMCHARGER
RAM WAGON

OFFICIAL SPONSOR
OF THE 1992 U.S.
OLYMPIC TEAM

"36 USC 380"

A SIMPLE PROMISE:

OVERALL, DODGE TRUCKS CAN DELIVER MORE PAYLOAD, TOWING AND HORSEPOWER THAN FORD, CHEVY OR ANY IMPORT. PERIOD.

More power and performance with MAGNUM Series engines. Perfect for your hauling and recreational needs, new MAGNUM series engines offer more horsepower and torque than competitive engines of comparable size. The MAGNUM 3.9-liter SMPI V6, available on Ram Wagons, pumps out 180 horsepower and 225 lb-ft of torque, while the MAGNUM Series 5.2-liter SMPI V8 engines, available on both Ramcharger and Ram Wagons, deliver 230/235 horsepower and 280/285 lb-ft of torque respectively. And for 1992, fuel economy and performance are better than ever when you team Ram Wagon's MAGNUM SMPI V6 engine with a new hard-working, easy-shifting five-speed manual transmission. Smooth-shifting four-speed automatic transmissions are available with V8 engines for greater towing ability.

More Ramcharger and Ram Wagon for your money. Compare Ramcharger and full-size Ram Wagons against their competition and you'll quickly see why Dodge has become the market leader. In fact, Dodge Ram Wagons were recently voted #1 in customer satisfaction,* beating the competition from Ford and Chevy. Compare prices. Compare standard and optional features. Compare and you'll find that for 1992, Dodge offers more advantages than ever before.

More value with Customer-PreferredSM Advantage Packages. Equip your Ramcharger or Ram Wagon with the Customer-PreferredSM Advantage Packages that give you popular equipment such as the new MAGNUM 5.2-liter V8 engine, air conditioning, and much more at NO CHARGE!

More security. All 1992 Ramchargers and Ram Wagons feature standard rear-wheel antilock brakes to help you make straight, stable stops in all weather while towing your boat, trailer home or nothing at all. And like all Dodge trucks, Ramcharger and Ram Wagon have two separate brake fluid lines and a tandem master cylinder. In the event that something happens to one brake line, the vehicle would still have brakes through the remaining hydraulic line. Plus, Ram Wagon now features a three-point safety belt system for rear seat passengers on the driver's side for all seating packages.

More choice. Ramcharger is the only full-size sport utility available in 4x2 and 4x4 models. Plus, Dodge offers six Ram Wagon models in a variety of wheelbases and cargo capacities. And both Ramcharger and Ram Wagons feature a number of Customer-PreferredSM Advantage Packages to meet your specific needs.

More warranty protection. Every Dodge vehicle comes with the protection of a Chrysler Corporation Limited Warranty. See your dealer for details.

ADVANTAGE: DODGE

About this catalog. Since the time of printing, some of the information you'll find in this catalog may have been updated. Ask your dealer for details.

Some of the equipment shown or described throughout this catalog is available at extra cost.

MORE MAGNUM POWER

More V6 Power. New MAGNUM Sequential Multipoint Fuel-Injected 3.9-liter V6.

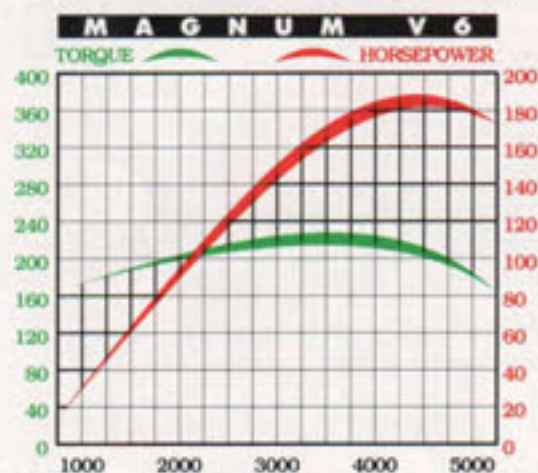

The MAGNUM SMPI 3.9-liter V6 has the most horsepower* of any six-cylinder engine offered in a wagon: 180 horsepower at 4,800 rpm, with 225 pound-feet of torque at 3,200 rpm.

More V8 Power. New MAGNUM Sequential Multipoint Fuel-Injected 5.2-liter V8.

The MAGNUM SMPI 5.2-liter V8 has the most horsepower and torque* of any comparable standard V8 in a wagon or full-size sport utility: 235/230 horsepower at 4,800 rpm, with 285/280 pound-feet of torque at 3,200 rpm, respectively.

Sequential multipoint fuel injection uses one injector for each cylinder's intake port in a new, tuned intake manifold. This electronically controlled system, along with revised combustion areas and exhaust manifolds, produces more power and more torque, plus offers good fuel economy.

* Based on comparative data at time of printing.

“... the power and torque gains in Dodge's light truck 3.9L V6 and 5.2L V8 for MY1992 are too drastic to ignore.”

Chilton's Automotive Industries

Leaner, meaner, tighter, tougher.

In addition to sequential multipoint fuel injection, Dodge's new MAGNUM engines share major design and quality improvements in the cylinder head, engine block and oil pan. The result is a 29 percent reduction in engine componentry, less weight, tighter sealing, reduced maintenance and long life, bringing you increased power, economy and reliability.

New oil pan gaskets using state-of-the-art silicone for a 60 percent quality improvement over conventional materials.

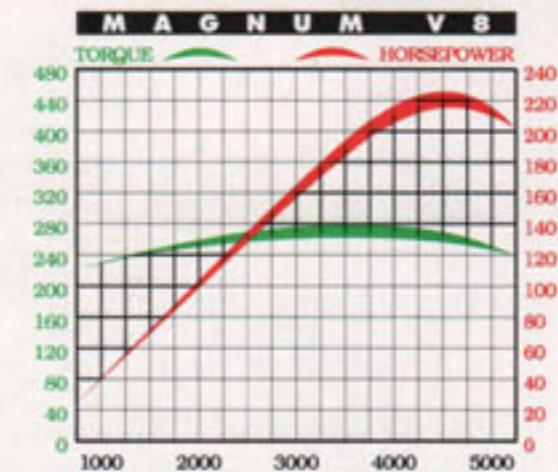

New combustion chambers and ports for more volumetric efficiency and increased horsepower.

New intake and exhaust valves and ports for better breathing, increased horsepower and higher RPM range.

New high-flow exhaust manifolds for improved breathing and more horsepower.

New sequential multipoint fuel injection system boosts horsepower and fuel economy.

New tuned intake manifold with a revolutionary barrel-shaped unique one-piece design increases horsepower and is easy to service.

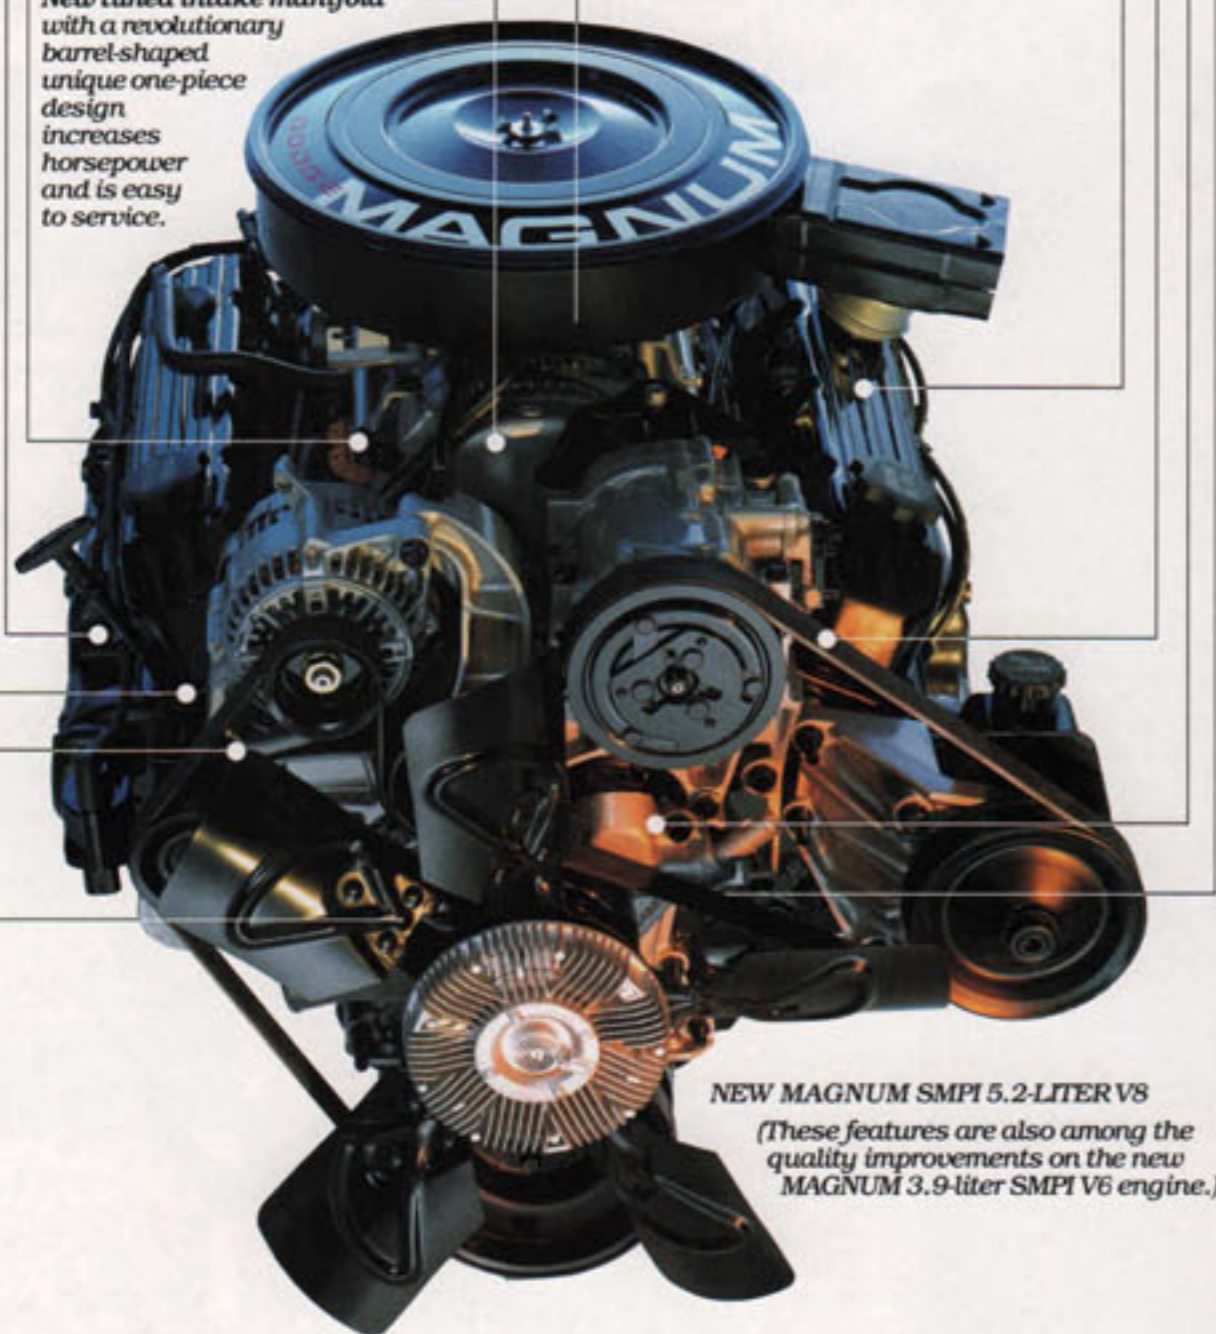

New pistons and new ring package for improved emissions control.

New water pump assembly cools with a higher flow rate.

New serpentine belt accessory drive with automatic tensioner for less maintenance and reduced engine vibration.

New rocker arms and cover assemblies for long life and improved sealing.

New progressive-bore throttle body (patented by Dodge) for better engine response and more horsepower.

NEW MAGNUM SMPI 5.2-LITER V8
(These features are also among the quality improvements on the new MAGNUM 3.9-liter SMPI V6 engine.)

MORE TOUGHNESS

From the rugged, heavy-towing Ramcharger to the many available models of the Ram Wagon, Dodge gives you more of what you buy a recreational vehicle for: Durability. Reliability. Cargo space. Warranty protection. Affordable performance. And value. Add to this Dodge's more than 75 years of truck experience and technical know-how, and you'll agree that when it comes to rugged, high-tech power and performance, Dodge Ramcharger and Ram Wagons are tough to beat!

New Transmission.

Die-cast aluminum and cast iron components enable Dodge's new hard-working five-speed manual transmission to achieve lighter weight, less noise, greater durability and improved reliability. The new heavy-duty five-speed offers overdrive, and is standard on Ram 150 wagons with short wheelbase and the MAGNUM 3.9-liter SMPI V6.

Rear-Wheel Antilock Brake Security.

For 1992, every Ramcharger and full-size Ram Wagon features a computer-controlled rear-wheel antilock brake system. This important safety feature helps maintain safe, controlled stopping under adverse driving conditions by preventing rear-wheel brakes from locking up under heavy braking on dry pavement or when traction is reduced.

Independent Front Suspension and More.

For easy handling and a smooth, comfortable ride, full-size Ram Wagons and two-wheel-drive Ramchargers feature independent front suspension, computer-selected springs and gas-charged shock absorbers all around. The rugged underpinnings of the Ramcharger four-wheel-drive include heavy-duty leaf springs front and back.

Ram-Trac Shift-on-the-Fly. Four-wheel-drive Ramcharger features standard Ram-Trac shifting, allowing you to shift from two- to four-wheel-drive and back at speeds of up to 55 mph — there's no stopping or backing up.

All-Steel Roof Construction.

Ramcharger handles anything and everything you throw at it with the quiet confidence of solid, all-steel construction. As an integral element of the chassis, Ramcharger's solid steel roof is more resistant to squeaks and rattles than Ford Bronco's bolted-on piece of fiberglass.

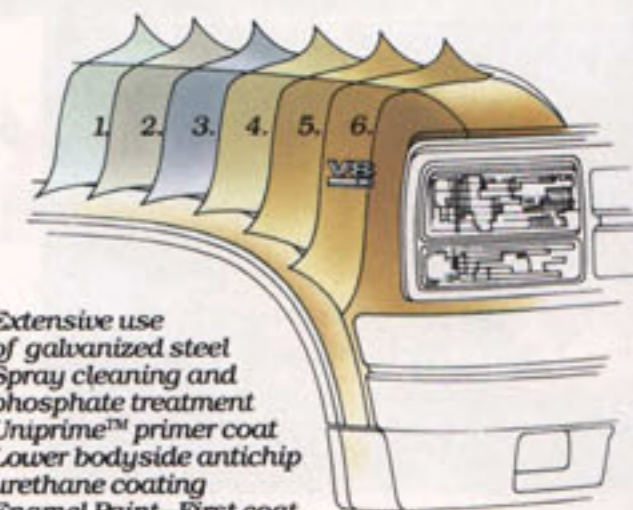

More MAGNUM Series towing power.

Dodge's already legendary towing reputation only gets better with the introduction of the MAGNUM Series 3.9-liter SMPI V6 and 5.2-liter SMPI V8 engines delivering more torque and horsepower than any competitive engines of comparable size. And for your heavy-duty towing needs Dodge offers the hard-working 5.9-liter EFI V8 engine — one of the most powerful wagon engines available and the largest engine available on any two-wheel-drive sport utility.

Seven-Step Corrosion Protection.

Dodge trucks feature extensive standard corrosion protection. The seven-step process shown below protects with a lower bodyside antichip urethane coating and Clear Coat paint.* Ramcharger and Ram Wagon also feature extensive use of galvanized steel throughout. And every Dodge vehicle comes with the protection of a Chrysler Corporation Limited Warranty. See your dealer for details.

* Clear Coat not available on Ram Wagon.

1. Extensive use of galvanized steel
2. Spray cleaning and phosphate treatment
3. Uniprime™ primer coat
4. Lower bodyside antichip urethane coating
5. Enamel Paint—First coat
6. Enamel Paint—Second coat
7. Clear Coat

ADVANTAGE
**RAM
 CHARGER**

More standard MAGNUM power. Dodge Ramcharger Canyon Sport's new MAGNUM Series 5.2-liter SMPI V8 pumps out 230 horsepower at 4,800 rpm and 280 lb-ft of torque at 3,200 rpm for more horsepower and torque than any competitive engine of comparable size. Harness this staggering power with Dodge's hard-working four-speed automatic over-drive transmission and you've got one tough towing machine.

More versatility. The Canyon Sport delivers the rugged toughness you've come to expect in a sport utility with excellent towing and stump-pulling V8 power—yet offers a wealth of car-like comfort and practicality, including up to 105.7 cubic feet of cargo space.

More toughness. Dodge Ramcharger is tough enough to go anywhere—with or without a trailer. Standard 4x4 Canyon Sport features include a V8 engine, automatic transmission, a heavy-duty transfer case, all-season OWL tires and a powerful 600-amp battery.

More comfort and convenience. In fact, Ramcharger provides more interior room than Ford Bronco. The Canyon Sport offers a wealth of interior luxury, including air conditioning, power windows and door locks, four-speaker AM/FM stereo cassette radio with digital clock, electronic speed control/tilt steering, rear window defroster, premium Austin Cloth bucket seats, and a convenient center console.

More style. The Canyon Sport stands out in a crowd with standard cast aluminum road wheels, color-keyed bumper with step pads, color-keyed grille and sporty two-tone paint treatment.

Ramcharger 4x2 and 4x4 Canyon Sport models available in Black Clear Coat, Bright White Clear Coat, Colorado Red Clear Coat and Dark Forest Green Metallic Clear Coat—all with a secondary lower color of Light Sand Metallic Clear Coat.

“...it climbs a rocky hill or slogs through doorsill-deep mud as effortlessly as it drives along the highway.”

Road & Track Truck Buyer's Guide

Ramcharger 'S'

Ramcharger LE.

Ramcharger Canyon Sport.

MORE UTILITY

More standard MAGNUM power. In addition to Ramcharger's new standard 5.2-liter MAGNUM Series SMPI V8 engine, a 5.9-liter EFI V8 engine is also available to meet your heavy-duty torque and towing needs. Both are mated to a heavy-duty four-speed automatic overdrive transmission.

More towing and payload. Properly equipped, Ramcharger 4x2 simply overpowers the competition with 7,500 pounds of towing ability and 1,335 pounds of payload capacity. 4x4 models offer the same towing ability with 1,680 pounds of payload capacity.

More savings. Customer-PreferredSM Advantage Packages allow you to equip your Ramcharger with popular equipment and save you money with big discounts.* As a result, you can get equipment such as the new MAGNUM Series 5.2-liter V8 engine, air conditioning and other options at no extra charge.

More standard features. Ramcharger offers gas-charged shock absorbers, a durable one-piece steel roof construction, an extra-large 34-gallon fuel tank, a computer-controlled rear-wheel antilock brake system and, on 4WD models, a heavy-duty 4x4 transfer case.

More choice. Ramcharger is the only full-size sport utility available in both 4x2 and 4x4 models. And Ram-Trac shifting on four-wheel drive models allows you to shift between 2WD and 4WD-high on-the-fly while traveling at speeds of up to 55 MPH.

More warranty protection. Every Dodge vehicle comes with the protection of a Chrysler Corporation Limited Warranty. See your dealer for details.

*Package savings based on price of equipment if purchased separately.

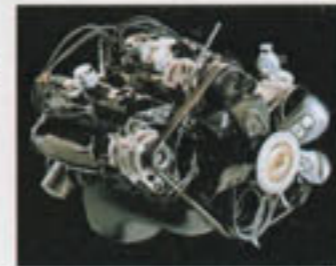

Ramcharger 4x2, shown in Dark Spectrum Blue Metallic Clear Coat and Platinum Silver Metallic Clear Coat.

“In addition to being able to tow items as large as most New York City 1-bedroom apartments, the Ramcharger excels in its off-road abilities.”

Road & Track Truck Buyer's Guide

For heavy towing, Ramcharger's optional hard-working 5.9-liter EFI V8 engine is the largest engine available on any 2WD sport utility.

Ramcharger provides convenient storage with a folding rear seat that offers 86.1 cu ft of space. Remove the seat for 105.7 cu ft.

Inside the Ramcharger LE and Canyon Sport you'll find high-back bucket seats, full center console, full carpeting, and a folding rear bench seat for optimal cargo space. LE shown in Charcoal.

ADVANTAGE RAM WAGON

More standard MAGNUM power. Dodge Ram Wagon's new standard MAGNUM 3.9-liter SMPI V6 with 180 horsepower at 4,800 rpm and 225 lb-ft of torque at 3,200 rpm, as well as its optional MAGNUM 5.2-liter SMPI V8 with 235 horsepower at 4,800 rpm and 285 lb-ft of torque at 3,200 rpm, deliver best-in-class power, yet still offer excellent fuel economy. The new easy-shifting, five-speed manual transmission is standard with the 3.9-liter V6 Ram Wagon 150 short wheelbase models.

Number one in customer satisfaction. With more durability, more power and more cargo capacity, Dodge Ram Wagon has been voted #1 in full-size wagon customer satisfaction.* Ram Wagon is America's preferred "people mover," offering room for five- to 15-passenger seating.

More value. Customer-PreferredSM Advantage Packages can provide valuable equipment such as air conditioning and much more at no charge... allowing you to equip a Ram Wagon just the way you like it, while providing significant savings.[†]

More choice. Choose from a wide range of models, including two wheelbases and three body lengths. Four side/rear door combinations are available—more than Ford and Chevy. And only Ram Wagon offers the single rear cargo door.

More towing potential. When properly equipped, Ram Wagon towing capacities range from 3,300 pounds to 8,600 pounds—power to make light of even the toughest jobs.

* 1991 J. D. Power Light-Duty Truck Survey.
† Package savings based on price of equipment if purchased separately.

Ram Wagon 250 LE shown in Dark Quartz Gray Metallic and Platinum Silver Metallic.

“For towing, cargo hauling or people moving, Dodge Ram Wagons are hard to beat.”

1991 Road & Track Truck Buyer's Guide

Ram Wagon LE is fully loaded with premium equipment both inside and out.

Ram Value Wagon offers a long list of features at an affordable price.

Ram Van 250 conversion on a 127.6-inch wheelbase features a raised roof and numerous amenities for comfortable travel.

MORE COMFORT

More comfort and security. Dodge Ram Wagon LE offers reclining front high-back bucket seats to support you in contoured comfort.

The optional center storage console, also included with the LE Decor Package, has cup holders, two map drawers, a

foldout writing tray with a flat writing surface, and a closable storage compartment for your convenience.

The security of our three-point safety belt system is offered in our five-, eight-, 12- and 15-passenger models for all front and driver-side outboard occupants. And Dodge Ram Wagon surrounds you and yours with Unibody construction that's stronger and lighter than Ford's body-on-frame design.

Furthermore, not only does Dodge Ram Wagon offer a short wheelbase model not available from Ford, it's the only wagon in the industry to offer a single rear door for convenient loading.

For ultimate comfort and convenience at a low price, the Value Wagon Package offers items such as air conditioning, bright grille and bumpers, large 35-gallon fuel tank, added passenger

seating, and six- by nine-inch low-mount exterior rearview mirrors. Other money-saving Customer-PreferredSM Advantage Packages are detailed on page 16.

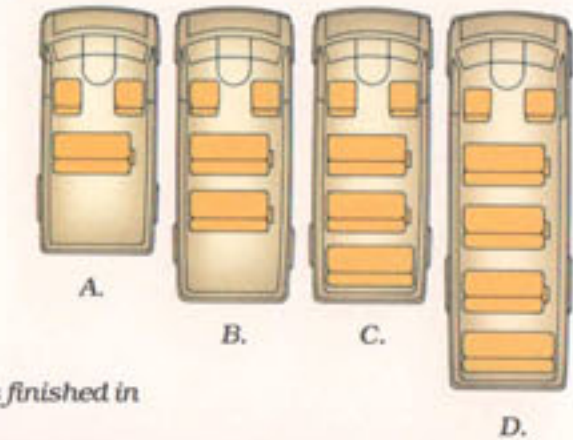

And every Dodge vehicle comes with the protection of a Chrysler Corporation Limited Warranty. See your dealer for details.

“Dodge Ram Wagon — the one to call when big people-moving jobs are at hand.”

Road & Track Truck Buyer's Guide

- A. Five-passenger seating standard on all models.
- B. Eight-passenger seating optional on Ram 250, Ram 350, and selected Ram 150 models.
- C. Twelve-passenger seating optional on Ram 350 models.
- D. Fifteen-passenger seating optional on Ram Maxiwagon 350 models.

The LE Decor instrument panel is finished in Cheyenne Hickory Woodtone.

A Travel Seating Package is available for the ultimate in vacation and travel comfort. It has quick-release bench seats that fold down into a lounger or a 4½ x 6½-ft bed. The front bench seat can also be reversed to install a woodtone-finish table with seating around it for six.

LE Decor, shown in Crimson Red, includes the premium steering wheel, luxury cloth bucket seats with vinyl trim and fold-down armrests, plus extra sound insulation.

For convenient and comfortable travel, a center storage console is available featuring cup holders, two map drawers, foldout tray, flat writing surface and a closable storage compartment.

CHRYSLER CREDIT FINANCING. THE FINANCING AND LEASE PROFESSIONALS.

Chrysler Credit Financing. Chrysler Credit offers a variety of finance programs that can help make your new Dodge truck even more affordable. These flexible finance and lease programs can be tailored to suit your budget and your lifestyle. They include Advantage: Gold Key Lease, Gold Key Plus, College Graduate Plans, Retail Financing, and other special payment plans. Ask your salesperson for details.

DODGE REMINDS YOU TO "TREAD LIGHTLY."

Dodge urges that all off-road vehicles be used with an appreciation of the natural beauty and resources of our land. Practicing "Tread Lightly" policies helps to protect nature, ensuring that it will be ours to enjoy for many years to come. Dodge supports the U.S. Forest Service's "Tread Lightly" Program and reminds you that when you go off road, go easy on the environment.

TREAD LIGHTLY!
ON PUBLIC AND PRIVATE LAND
